Work Logs

Phase	Date	#	Number of Hours	Tr	Description of Work Done
Progress Report 5	31/03/2025	2			Based on user feedback, modified the frontend and backend scripts to accommodate new columns in the member portal
Progress Report 5	01/04/2025	2			Based on user feedback, modified the frontend and backend scripts to accommodate new columns in the admin portal
Progress Report 5	02/04/2025	1			Researched the techniques to implement the Sorting function in the UI
Progress Report 5	03/04/2025	2			Modified the approved_products.html script to sort the approved products (user) table by Submitted Date, Approved Date, Product Name
Progress Report 5	04/04/2025	0.5			Modified the admin_pending_products.html script to sort the pending products (admin) table by Submitted Date, User Email, Product Name
Progress Report 5	05/04/2025	0.5			Modified the admin_approved_products.html script to sort the approved products (admin) table by Submitted Date, Approved Date, User Email, Product Name
Progress Report 5	06/04/2025	3			Drafted and finalized the progress report 5

1. Research & Learning

- Explored how to implement the Sorting function in the 4 UIs:
 - Submitted Product Inquiries – Member Portal
 - Approved Product Inquiries – Member Portal
 - Pending Product Inquiries – Admin Portal
 - Approved Product Inquiries – Admin Portal

2. Model Implementation

Adding New Columns

- Based on user feedback, modified the **front_end** and **back_end** scripts to accommodate new columns (*Submitted Date, Approved Date*) in the member portal.

Submitted Product Inquiries

Submitted Date ↓	Product Name	Description	Image	Status
↑				

Approved Product Inquiries

Submitted Date ↓	Approved Date	Product Name	Description	Image	Approved Category
↑	↑				

- Based on user feedback, modified the **front_end** and **back_end** scripts to accommodate new columns (*Submitted Date, Approved Date, User Email, Recommended Category*) in the admin portal.

Pending Product Inquiries

Submitted Date ↓	User Email	Product Name	Description	Image	Recommended Category	Actions
↑	↑					

Approved Product Inquiries

Submitted Date ↓	Approved Date	User Email	Product Name	Description	Image	Recommended Category	Approved Category
↑	↑	↑				↑

LightsProductInquiryTemp Azure table (after approving)

Implementing Sorting Function

- Modified the **user_products.html** script in the front end to sort the submitted products (member) table by *Submitted Date*, *Product Name*.

Submitted Product Inquiries

Submitted Date ↓	Product Name	Description	Image	Status
2025-04-06 20:05:21	Miniature Bulb Package	Miniature bulbs are small, or very small bulbs. They can be LED, incandescent, halogen or neon and are typically designed and sold as replacement bulbs for applications such as: portable lighting (i.e., handheld flashlights), indicating, signaling, signage, emergency, electronic displays, automotive and transportation and decorative light strings / tape / ribbon / rope.		Pending
2025-04-06 20:04:43	Light Emitting Diodes (LED) - Bulbs	Solid-state bulbs that are typically similar in size and intended to replace CFLs or traditional incandescent / halogen light bulbs, including pin-type or screw-in bulbs of various output wattages.		Pending
2025-04-06 20:04:05	Incandescent / Halogen	Filament lamps of all shapes, sizes and wattages		Pending
2025-04-06 20:03:24	Fixture Category A - Chandeliers and Ceiling Fans	Ceiling Fans with Lights		Pending
2025-04-06 20:02:29	Compact Fluorescent Lights (CFL) / Screw-In Induction Lamps	Fluorescent bulbs that are typically similar in size and intended to replace an incandescent (traditional) light bulb, including pin-type sockets, covered CFLs and various output wattages. Includes screw-in induction lamps.		Pending

3. Reporting & Documentation

- Drafted and finalized **Progress Report 5** summarizing the key developments.

Repository Check-in Details

The scripts I have checked into the GitHub repository since Progress Report 4 are as follows:

- [front_end scripts](#)
 - In response to user feedback, updated the scripts to support new columns in the member and admin portals.
 - Implemented sorting functionality in the UI, enabling sorting in relevant HTML templates by key fields such as *Submitted Date*, *Approved Date*, *Product Name*, and *User Email*.
- [back_end scripts](#)
 - In response to user feedback, updated the scripts to support new columns in the member and admin portals.

Regular check-ins were maintained to ensure all progress was tracked in the repository.
